DETAILED ACTION

Response to Amendment

1. Based upon the submitted restriction election, the examiner notes that claims 1-23 have been selected and claims 24-43 have been withdrawn from consideration.

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-23 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claimed subject matter can be implemented and entirely contained within a processor. There is no concrete or real world result, only manipulation of abstract data.
